

We currently have 3 female pups available.

Their DOB was 17 June '25.

Here are some pictures taken a couple days ago.

The kennel name of all these girl-pups is “Maudie” with a -1, -2 or -3 to identify them specifically, Maudie is a very cool name for a... girl.

Look it up.

Maudie-2, left and Maudie-1 (white toes and chest) at the right.

Keep on scrolling....

A close up of Maudie-1.
These little guys are just at 7-weeks age.

A good broadside of Maudie-1.
If you look carefully you can see Maudie-3 behind her.

A good look at Maudie-2.

Another good look at Maudie-2.

The brindle is Maudie-3.
She's been the biggest since they were born.
The others are catching up but keeps growing too.

Another look at Maudie-3.

The other pup (Maudie-1) well back in the box. It makes her look much smaller than she really is. (Limitations of a phone camera at play.)

A nice picture of Maudie-3. A really nice specimen.
