Brandi is a littermate of the world famous "Nemesis-Roxie" (the 22-lb Patterdale bitch that killed a 35-lb Pitbull bitch in a horrible kennel accident a few years ago.)

Rattler is a son of J&Js Panama Red (aka Griffith's Pinky) who is thought of as a primary source of "the power in the blood" of this family of Patterdale Terriers.

Rattler was sired by Rooster who is bred the same as Brandi but from the next litter of those parents.

Rooster is the smartest dog we've seen in a long time.

Ron's Dyke is from a litter with many Ch dogs.

This family of dogs tends to be fierce beyond sensibility and naturally inclined to hunting. Their problem-solving ability is amazing, sometimes to the point of annoying.

1. Lite-Chocolate-Brindle Male. (Beginning to act like the bad-ass of the litter)...**SOLD**

2. Very dark Chocolate-Brindle Female (with some blond-brindle COMING IN on her back and a back leg)...**SOLD**

3. Dark-Buckskin (very pretty)... **WAS SOLD**, but fell thru for unrelated reasons.... **Available Again....** for the present.

4. Dark-Brown-Brindle Female (any darker and we'd say she's a Black-Brindle.)

5. Black-Brindle Male, a very smart and friendly fellow, quickly becoming a favorite. (The darkest of the Black-Brindles.)

6. Black-Brindle Male, (any more brown and we'd say he's a brown-brindle.)

7. Black-Brindle Female, (not seen because she's feeding from a dish that's not in view. She looks just like the other Black-Brindles but a bit smaller)

These pups were 10+wk old when this photo was taken. Size reference: they're standing on 2x6 floorboards.

Now (13 Nov) they're nearly 18-wks they're about the size of big squirrels which might mean they won't be big dogs.

We're guessing they won't finish over 20-lbs, probably less.
